

Care for your glasses

Your glasses regularly need some love and care, so we will happily provide FREE cleaning, adjustment and servicing of your glasses for their lifetime, so next time you are out and about, pop in and say hi!

And when you're not near one of our stores, use the handy hits below so they remain in tip top condition until you're due for a new pair.

- Your glasses need love daily, so clean them before you pop them on in the morning.
- Clean your glasses with a lens cleaner and a soft tissue or a microfibre cloth, we know you may be tempted to clean them with your shirt, but resist the urge, your glasses will thank you for it.
- Wear your glasses with care. Use both hands when taking them off. This will help them stay in their original shape as so they sit perfectly on your face!
- Protect your glasses from scratching by always carrying them in their case and because your glasses want to see the world as well, face them up at all times when they are resting.

See it like it is.
